HOUSE SPECIALTIES

These two rarities are both unbreaded orders of ten chicken wings served with any sauce or rub of your liking. We only make a limited amount each day so get them while they are available.

BLACKENED GOLD 14

These wings are lightly seasoned and then charred on our grill. Don't let the look of the burnt skin fool you, these are pure fire.

SKYLINE SMOKESTACKS 14

Seasoned and then smoked. These will change flavor with the seasons so make sure you ask your server for more details before you decide on how you want them sauced.

On Deck

Be sure to ask any member of our staff about the On Deck Special of the day. We are constantly scouting new items that could land a permanent spot on our menu's roster and the best way for us to test those items is to throw them onto the field and see how they do. The On Deck Special could be a new burger, some sort of crazy appetizer for a table to share, or possibly even a cocktail that the barkeeps are toying around with. After you finish devouring whatever the special may be make sure you let us know what you thought of it!
